CAREER OBJECTIVE

IT professional with over four years of experience in hardware, software support, and IT engineering. I am seeking a position in the IT field, including roles such as IT Engineer, Support, Networking, or Analyst. Skilled in providing technical support to over 10,000 users, with expertise in resolving issues efficiently and adhering to critical procedures. I hold a bachelor's degree in information technology and certifications in MCSE/MCSA and CCNA. A strong multitasker and problem-solver, committed to delivering effective solutions and building strong relationships with business partners. Eager to contribute my skills and continue developing my career to achieve organisational objectives.

KEY STRENGTHS

- Effective communication skills developed through daily face-to-face interactions with customers and clients in the hospitality industry
- Able to multi-task and prioritize tasks accordingly through my excellent organizational skills, making strict schedules and checklists to ensure deadlines are met, increasing efficiency and productivity levels
- Ability to work within a team and contribute to tasks to achieve organizational objectives which has allowed me to develop leadership skills
- Strong interpersonal skills gained through extensive customer service experience
- Proficient in written communication and administrative skills
- Strong technical knowledge of networks, PCs/peripherals, and platform Operating Systems and associated hardware.
- Experience in IT service support and customer service.
- ITIL Foundations certification/methodology.
- Strong communication and problem-solving skills.
- Strong team player and ability to work independently.

EDUCATION

The ACS Professional Year Program – ICT **Oct 2022 – April 2023**
QIBA, Sydney Campus

The Professional Year Program is a work readiness program designed to prepare university graduates for the professional ICT workforce. Topics include business communication, workplace relations and practices, WH&S, professional networking, report writing, and effective presentation skills

Bachelor of Information Technology **Feb 2019 - May 2022**
Victoria University, Sydney Campus

Key Achievements: ***High Distinction*** *achieved in Programming, Web Development, Enterprise Network Management and Networking Technology*
Distinction *achieved in Big Data, Cyber Security Essentials, and Operating Systems*
Key Subjects: Networking, Cyber Security, Data Analytics.

Advanced Diploma of Information Technology **Feb 2018 - Feb 2019**
Kingston Institute, Sydney

ACADEMIC PROJECTS – Victoria University Oct 2020

Title: Raspberry Pi Vehicle Anti-Theft Face Recognition
Objective: To develop a program that uses a face recognition system to identify the authorized users of the vehicles.
Tools: Raspberry Pi, GSM module, Python
Duties: In a group of 5, my duties involved writing the coding and script for the face recognition module. We built a device to market our products and carefully design a system that can be set up remotely with very little effort. The system uses a Raspberry pi circuit consisting of a camera that scans the person's face to authorize the owner of the car.
Outcome: Achieved a **High Distinction**

PROFESSIONAL EXPERIENCE

Carers NSW - IT Technology and Support Officer **July 2023 – till now**

- Administer and maintain computer networks, addressing software, hardware, configuration, and End User Computing device issues, including installation, troubleshooting, repair, and replacement.
